### GLOBAL FRANCHISE OPPORTUNITIES EXPANDS A BUYER'S CHOICE HOME INSPECTIONS AND IHANDYMAN INTO AFRICA

Global Franchise Opportunities, the system of internationally recognized, proven franchise concepts including A Buyer's Choice Home Inspections (ABCHI), iCare – Intelligent Home Care Solutions and iHandyMan, announced that ABCHI and iHandyMan will soon be available to homeowners seeking their services in Africa.

The franchisor has signed eight master franchise agreements to significantly expand the two concepts in Nigeria, Ghana, Kenya and Angola. Master franchisors in each country will lead the openings of several ABCHI and iHandyMan offices within their respective territories.

"After intense market research and ongoing discussions with professionals in Nigeria, Ghana, Kenya and Angola, we've identified a need for reliable home inspection and maintenance systems capable of tackling a range of home projects," said

Bill Redfern, founder, president and CEO of Global Franchise Opportunities. "We've been working tirelessly to emerge into Africa through master franchising in order to continue making the woes of inspecting and maintaining a local home or business a thing of the past."

ABCHI is Redfern's first franchise concept and is the world's fastest-growing home inspections business. iHandyMan is Redfern's third franchise concept, which offers comprehensive services with specialized carpenters, electricians and plumbers.
